Pip's

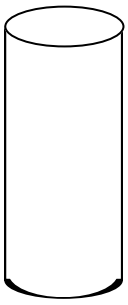

Constellation Projector

You will need

1. Flashlight
2. Tube
3. Constellation cards
4. Something small and thin to poke small holes into paper. (Ex. a Tack, Paper Clip)

Instructions

- Cut out Constellation Cards into squares.
- Poke a small hole into each star.
- Place constellation onto the top of the tube *face down*.
- Turn off all the lights and shine the flashlight through the tube to project the constellation onto the ceiling.

P.S. See if you can make your own constellation by poking your own pattern. You can also try poking tin foil. Does it make a difference?
